

ULTRAWRAP >>

UltraWrap™ is a low-profile, wraparound, hinged knee product for patients with mild to moderate strains or sprains of the ACL, MCL, LCL and PCL. Ideal for patients who have difficulty applying a sleeve, the UltraWrap has four contouring pull points for ease of application. These pull points enable patients to correctly fit and easily secure the anterior hook-and-loop closure of the garment. Removable, semi-rigid uprights with Accutrac™ hinges provide anatomically-accurate tracking, extension control and additional medial/lateral support.

Indications >>

- Mild to moderate strains or sprains of the ACL, MCL, LCL and PCL
- Warmth, compression and proprioception

**Product Highlights >>**

- 1 Accutrac™ hinges with semi-rigid uprights and extension stops
 - Extension stops: 0-10°; 10-20°; 20-30°; 30-40°
- 2 Anterior closure with contoured pull points for easy application
- 3 Textured interior grips skin surface to reduce migration and stimulate neuroreceptors

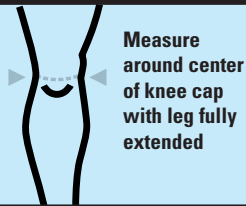

Other Features & Benefits >>

- Accutrac™ hinges provide anatomically-accurate tracking
- Removable, semi-rigid uprights provide medial/lateral support
- Ultra-soft, form-fitting Neoprene hybrid provides superior comfort and contours to the leg
- Elastic-bound garment for improved fit, compression and durability
- Non-binding, breathable popliteal cutout improves comfort
- Condylar support at the knee joint
- Easy to apply and adjust
